Coal Mining

China May Waste \$490 Billion on Unneeded Coal Plants: Study

China risks wasting \$490 billion by building more coal power plants than it needs as slower power demand growth and less polluting energy sources squeeze coal generation out of the power mix, according to a study from an environmental think...

Coal Mining

Interior Official to Trump: Go See Devastation in Coal Country

President-elect Donald Trump should go witness first-hand the effects of coal mining in Appalachia before embarking on his plans to ramp up coal production and scrub environmental regulations, a high-ranking Interior Department official...

Drinking Water

Flint Pushes for Drinking Water Aid in Lame-Duck Session

Advocates of aid for Flint, Mich., are putting renewed pressure on Congress to pass a federal funding package in the current lame-duck session....

Hazmat Transport

Canada to Adopt Global Hazmat Standards, Align With U.S.

Canada is proposing updating its rules transporting dangerous goods to bring them in line with international standards and better align them with U.S. requirements....

Hydraulic Fracturing

Shale Fracking Rebound Starts With Costlier Grains of Sand

The oil field service companies that supply everything from sand to sophisticated robot rigs are seeking a new lease on life as America's fracking fortunes begin to turn....

Oil & Gas

Federal Easement Could Ease N.D. Pipeline Standoff, Governor Says

Demonstrators protesting the Dakota Access Pipeline near Cannon Ball, N.D., awoke to newly fallen snow early Nov. 28, more than a week after North Dakota's governor called on the federal government to end the standoff. ...

Ozone Depletion

Canada to Phase Out Bulk HFC Use, Differing From U.S. Plan

Canada is taking a different path than the U.S. for eliminating hydrofluorocarbons, a potent greenhouse gas, by planning to phase out bulk uses. ...

Recycling

Quebec Funds Project to Recycle Refrigerators, Reduce Emissions

Quebec will use C\$5 million (\$3.7 million) from funds generated by the province's cap-and-trade program for greenhouse gas emissions to help finance a new private-sector project to recycle refrigerators. ...

Water Pollution

Canadian Mine License Raises Concerns for Alaskan Waters

The issuance of a Canadian water license for a mine whose output could harm Alaskan waters was done without state consultation with a stakeholder working group, Guy Archibald of the Southeast Alaska Conservation Council (SEACC) told Bloomberg...

Water Pollution

China's Hebei Province Lags in Industrial Water Pollution Control

Industrial areas outside of Beijing remain a primary source of water pollution in the capital region, China said in a new report....

Water Pollution

Supreme Court Seeking DOJ's Input on Gold King Mine Suit

The Supreme Court is seeking the federal government's view of New Mexico's suit against Colorado in connection with the August 2015 release of 3 million gallons of mining waste and sediment into the Animas River watershed New...
